

Overall Management Philosophy & Documentation				
#	Environmental Compatibility Indicator	Yes	Partial	No
1	Has management demonstrated that the environment is an important part of their responsibilities by initiating the GEM Planning process?			
2	Has the golf course adopted and posted an Environmental Policy?			
3	Is the GEM Plan underway or completed, available, and updated regularly?			
4	Is a map of the property highlighting environmental opportunities or constraints such as water features, sensitive landscapes, threatened or endangered species habitat, special management zones, etc. used in the environmental management decision-making process and is it posted for customers?			
5	Environmental goals, objectives, issues, projects, and progress are evaluated at least annually and are regularly communicated to employees, customers, management, and the local community?			
6	Are written records of water quality monitoring activities, results, and control measures readily available?			
7	Is there an inventory of bird and mammal species documented, maintained, and readily available?			
8	Is there a general understanding of how course management practices may positively enhance or adversely impact the environment?			
9	Are the environmental impacts of pest control measures such as leaching and runoff potential, toxicity to non-target organisms, soil absorption capacity, pesticide persistence, water solubility, and effects on soil microorganisms and non-target species considered as part of the course management planning process?			
10	Are records of pest treatments employed and their effectiveness maintained and used to guide future pest control decisions?			
	Point totals for each column
